

3 Link to Documentation

More detailed information is available through the Customer Support Portal. It can be accessed in two ways:

- Directly via <https://support.cohdawireless.com>
- Through the "Customer Support" on the Cohda Wireless website www.cohdawireless.com

On the signup page that opens, enter your name and email address in order to register for Support and access to technical documentation.

Your email address **has to be the Company email address** and not your personal email address.

Once you have signed up and logged into the Customer Support portal, you will have access to the information on all Cohda products, how to develop applications and FAQs. You can lodge a support request by clicking on the button "Submit a request".

For downloading Firmware and SDK:

Please open an account in Box 'https://app.box.com/' using the same email address.

You could also refer to the Zendesk Help Centre End-users guide given here - <https://support.zendesk.com/hc/en-us/articles/203664386-Help-Center-guide-for-agents-and-end-users>

1 Unpack the MK5 OBU / OBU Kit

Following items are included in the MK5 shipment.

MK5

DC Cord

DSRC Antenna
(*Bundled with OBU Kit)

2 Connecting MK5 OBU / OBU Kit

Connect Antenna to MK5 Unit **WARNING!** DO NOT power MK5 unit without antenna. DO NOT connect two MK5 units together without 50dB attenuation in between.

2.1 Connect 12Vdc to MK5.
